

PERFECT NATURAL SOUND

MEZE HEADPHONES

BRAND
PRESENTATION

HISTORY

Founded in 2009, Meze was born out of our passion and commitment to pure sound. We love music and we love things that are well made. In the first years we started small, acquiring knowledge by experimenting with parts already on the market, searching for the best sound. Building on initial success, our headphones and earphones evolved into products developed fully by ourselves, bearing the mark that makes Meze Headphones a distinct company.

VALUES

We develop each product as making it for ourselves, aiming to create timeless, classic devices to fall in love with. Our headphones are built keeping in mind what music lovers need: style, quality, and a sound to match. We want our client to get a pair of headphones that stand out from the rest.

PEOPLE

The Meze Headphones team is composed of young and passionate people, each member active in the music, sports, and design scenes one way or another. Our aim is to push the boundaries of our current products, to create something new and yet to remain true to the values, philosophy, and sound signature that Meze Headphones is built around: timeless, quality products with a fun and natural sound signature.

AWARDS

REVIEWS

"So after some lengthy organizing and conducting my inventory, I realized I currently own 50 headphones. Funny thing is every time I reach out to listen to music, I end up with the 99 Classics in my hand. It is such a great sounding headphone."

head-fi.org

"Designed with the express purpose of being so good and convenient, the 99 Classics will stay with you forever, becoming the only headphones you'll ever need. As for the sound, the 99 Classics headphones are honest there too. Designed with just the right sound balance, the cans deliver crystal clear, un-altered sound. The audiophile in me is highly impressed!"

yankodesign.com

"Excellent audio performance with articulate highs and ideal bass response. The Meze 99 Classics are handsomely designed headphones that deliver an exciting audio experience."

STYLE

Just like finger prints, wood grain is as unique, thus making each pair of Meze Headphone a one of a kind. You will love how they feel in your hands. Sturdy build and precise assembly. The ear cups are made with a satin finished wood grain. Put them on, sit back, and enjoy your favorite sound of plucked strings, upbeat grooves or thumping beats while still looking classy.

FEATURES

We aimed for perfection in every component we designed. CNC carved wood ear cups, cast zinc alloy hardware with electroplated coating, stamped manganese spring steel headband, memory foam and soft protein leather are the materials your hands and eyes will get to enjoy. No plastic here for you to see.

99 CLASSICS

PRODUCTS

99 CLASSICS

The Meze 99 Classics promises to deliver perfect natural sound even to the pickiest of audio lovers. The walnut or maple wood earcups, soft earpads, and the spring steel headband will make the 99 Classics an heirloom rather than just a pair of headphones.

99 NEO

A new model in the 99 line is currently in the works, the Meze 99 Neo, a variation of the original, promising to deliver the same audio quality as the 99 Classics, at a more affordable price point.

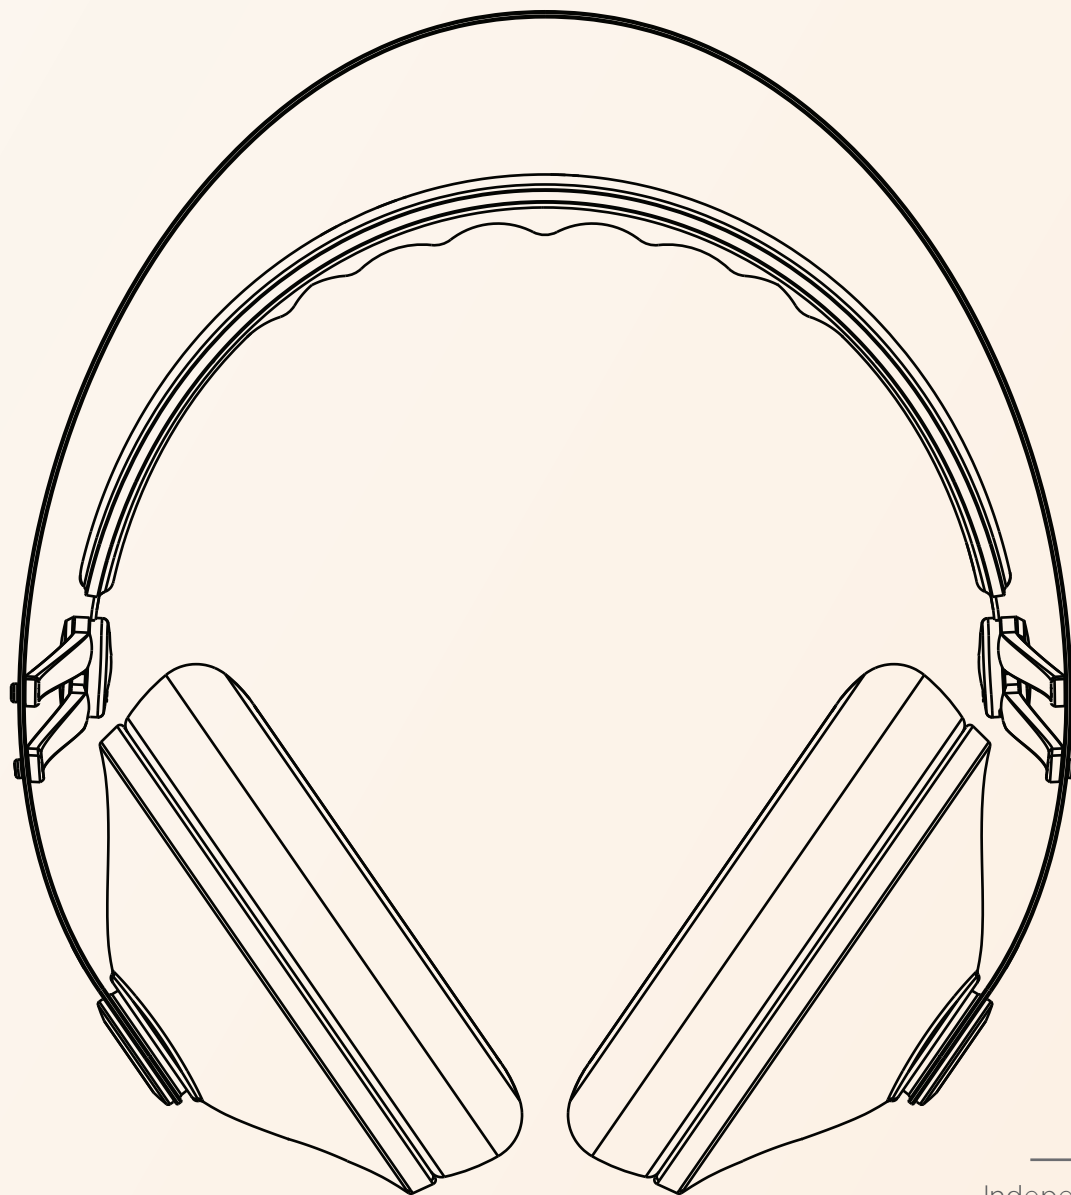

12 CLASSICS

Elegant handcrafted walnut wood and aluminium body, reproducing detailed and crisp, natural sound. Comes with silicon and Comply™ foam T-500 Isolation M ear tips, and EVA carrying case. The microphone and pause-play system on the Oxygen-free copper (OFC) cable make this an indispensable gadget for today's big city lifestyle.

11 NEO

Furthering our pursuit for pure expression through design, we are proudly introducing the Meze 11 Neo earphones, as a stylish yet practical device, coming in two variations: Gun Metal and Iridium. Having a full aluminium body, the 11 Neo series is the more affordable alternative to the 12 Classics.
